Section 4. First Aid Measures

4.1 Description of First Aid Measure

Eye Contact Gently rinse the eyes with water for at least 15 minutes. Get medical attention if eye irritation develops or persists.

Skin Contact Not ordinarily expected in contact at normal temperature. If contact with hot material, cool the burn area by flushing with large amounts of water and get medical treatment.

Inhalation If gas or dust generated in process is inhaled, remove person to fresh air. If signs/symptoms continue, get medical attention.

Ingestion Rinse mouth with water and get medical advice. Do not induce vomiting.

4.2 Most important symptoms/effects, acute and delayed

None expected

4.3 Immediate medical attention required

Get medical attention as instructed above

Section 5. Fire-Fighting Measures

5.1 Extinguishing Media

Use water, fog, foam, dry chemical powder or CO₂.

5.2 Special Hazards

Not flammable but will burn. Toxic gases (carbon monoxide) may form when burned without sufficient oxygen.

5.3 Protections of Firefighters

Firefighters should wear proper protective equipment (helmet with face shield, bunker coats, gloves and rubber boots), including a positive pressure NIOSH approved self-contained breathing apparatus. Keep personnel removed from and upwind of fire. Cool fire exposed containers with water.

Section 6. Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Wear appropriate respiratory protection and protective clothing as described in section 8.

6.2 Methods and Material for Containment and Cleaning Up

Normal procedures for clean-up. Use good housekeeping practices. Shovel and sweep up or use industrial vacuum cleaner. Put into containers for reclaiming or disposal.

Section 7. Handling and Storage

7.1 Precautions for Safe Handling

Do not use near open flames. Avoid breathing vapors from heated materials. Adequate ventilation and/or engineering control must be employed in high temperature processing. If dust is created in processing, ground facilities to prevent static sparks and remove ignition sources.

7.2 Conditions for Safe Storage, including Any Incompatibilities

Store in a cool, dry, well ventilated location.

Section 8. Exposure Controls/Personal Protection

8.1 Exposure limits

None assigned

8.2 Engineering Controls

Adequate ventilation and/or engineering controls are required when product is heated in processing.

8.3 Individual Protection Measures

Respiratory Protection If engineering controls do not maintain their performance to a level that is adequate to protect worker health, a NIOSH-approved respirator should be worn. In accordance with 29 CFR 1910.134, use either an atmosphere-supplying respirator or an air-purifying respirator for organic vapors and dusts.

Protective Clothing Safety glasses and protective clothing should be worn when product is heated in processing.
