Kuraray Co., Ltd.

Price Increase of SEPTON™, HYBRAR™ and KURARITY™

The Elastomers Business Unit will raise the transaction prices of following Elastomer products in all regions effective May 1, 2022 or as existing supply agreements allow: ALL SEPTON™, HYBRAR™ and KURARITY™: \$0.50 per kilogram (\$0.23 per pound).

Continuously increasing feedstock prices, utility and logistics costs have reached to the level beyond unilaterally absorbable by self-saving efforts. This time, it is necessary to recover a portion of these increases to ensure ongoing supply and new product innovation.
