### Price Increase of SEPTON™, HYBRAR™ and TU-Polymer

The Elastomers Business Unit will raise the transaction prices of following Elastomer products in all regions effective March 1, 2026, or as existing supply agreements allow:

ALL SEPTON™, HYBRAR™ and TU-Polymer: \$0.33 per kilogram (\$0.15 per pound).

Increasing feedstock prices for the relevant products, including butadiene, have reached a level beyond unilaterally absorbable by self-saving efforts. This time, it is necessary to recover a portion of these increases to improve profitability and maintain a stable supply.
