## Price Revisions for SEPTON™, HYBRAR™ and TU-Polymer

Kuraray Co., Ltd. announces its decision to upwardly revise the prices for the following Elastomer products in all regions effective June 1, 2026, or as existing supply agreements allow.

Increasing feedstock prices, utility and logistics costs, as well as packaging materials, have continued to rise and have exceeded the level that can be absorbed through internal cost-saving efforts. Therefore, it is necessary to recover a portion of these increases to maintain sustainable business operations.

1. Scope of revision: SEPTON™, HYBRAR™ and TU-Polymer
2. Effective date: June 1, 2026 or as existing supply agreements allow
3. Price increase: 0.33 USD/ kg (0.15 USD/pound)
